How on brand the tests and class materials translated. She was upfront that she would never ask us something she didn't explicitly teach and that was appreciated and accurate.	I think it was taught very well.	One group project, exams were not easy if you didn't put in some effort but not difficult if you did.	It was a very content heavy course but was not too bad overall.	None
I felt the notes were very organized and the study guides were also very helpful for the tests.	I feel as if there was no weakness.	this course helped me understand how to communicate better and gave me knowledge on why we communicate the way we do.	N/A	N/A
I really liked the way the professor taught, she was the best! Will definitely recommend others taking her class specifically.	NA	The way it was taught, and the professor wanted to see her students to succeed.	NA	NA
it was a great environment and I learned a lot	could be boring at times	It is an easy alternative to public speaking	N/A	[No answer given by student]
It was informative and helpful for concepts taught in the course.	Sometimes it was relatively surface level.	The course was well organized and easy to follow.	It felt a little rudimentary at times.	N/A
My professor was very well organized and always had her notes available to us online as well.	[No answer given by student]	It was fairly easy to comprehend and study.	[No answer given by student]	[No answer given by student]
She is very knowledgeable on every subject so it makes the class more enjoyable and she is very understanding too.	Could explain some topics better.	Taught me about communication between people and in different relationships.	A lot of information to memorize and remember	Give more feedback on our work and assignments so we know if we understand the topics correctly
The slides were done well and she did a good job showing examples through videos	n/a	The paper was cool and allowed us to reflect on our own styles of communication	n/a	n/a

<p>I think she did a good job of telling us what was expected and keeping us on track with completing the course material.</p>	<p>Sometimes the syllabus was inconsistent with what she was asking of us and clarification was needed to explain some of the objectives.</p>	<p>The course was very interesting and felt useful for my personal life.</p>	<p>The course content was sometimes repetitive with the assignments.</p>	<p>Maybe the teacher could hold virtual office hours for the students to check in and gain more clarification.</p>
<p>I think the idea of doing video responses for discussions ties very well into the idea of public speaking and interpersonal communication, and was definitely a good way for us to practice. Professor Divya Srivastava is very straight forward and cares about students too.</p>	<p>I have said this for almost all the other courses that use McGraw-Hill. McGraw-Hill is a terrible way to learn, it really just feels like busy work rather than actual useful activities. It promotes memorization rather than learning. If this class' content only consisted of the project, textbook readings, Quiz, and video discussions, and we completely got rid of the connect activity and HW, I'd have learned just as much. I don't think the connect activity helps me learn any new concepts and doesn't reinforce what I read from the text either, especially when we have 50 concepts per chapter, it definitely just feels repetitive and takes way too long. Some professors have tried suggesting doing the connect assignments while reading the textbook chapter, but all that does is make me get through a chapter in 3 hours when it could have taken 1.5.</p>	<p>I think the fact that we were still able to practice public speaking through video discussion and through the group project despite being an online class was very innovative. I also think Professor Divya Srivastava is very responsive, caring, and considerate of students.</p>	<p>The use of McGraw-Hill connect assignments never helps me in any course ever.</p>	<p>McGraw-Hill is not a great way to learn and I don't know why so many UGA courses utilize it. A top 50 institution is the country should not be handing out busy work for assignments. What would be a better way to learn:</p> <p>1 hands-on or thought provoking assignment that takes 20 minutes to complete 100 repetitive and memorization oriented questions that takes 90 minutes to complete</p> <p>Even though the first assignment only takes 20 minutes compared to 90, most would argue that it was more useful and reinforces learning more efficiently. Learning is not based on the time it takes to</p>

				complete an assignment and the amount of questions the assignment has. There actually needs to be meaning and depth. This is all aside from the fact that the textbook UI within McGraw Hill is horrible too.

Divya did an amazing job of explaining the content and all of the presentations and videos helped me to learn the material.	I don't think there were any!	The team tasks really helped my group prepare for our research.	None	I don't have any! The course is great!
Divya made it very clear what topics would be on the exams	N/A	It makes research papers less intimidating	N/A	N/A
Dr. Divya was a fantastic teacher and always conveyed the concepts clearly. She was also extremely helpful, understanding and replied to emails very quickly. She cares about her students. She was always available to ask questions. Very good professor.	None	I became comfortable with research more. It also helped me work collaboratively with classmates.	It was a heavy courseload	More in time class to work on research, less lecture or a fair split.
She is very knowledgeable in her subject and is easy to contact outside of class.	There were none.	This course went at a good pace and felt like it was well organized.	There were none. This course was done very well.	More activities such as when we went outside and observed.
she was very helpful, powerpoints were good, she made sure that we were well prepared for exams	some things were a bit repetitive and some classes seemed pointless on certain days	it provided necessary information to students and allowed us to work with others	some things were a little up in the air sometimes but overall it was great	Divya was an incredible and caring teacher who helped her students in order to succeed. Continue your

	becasue it was a sort of recap from the class before			hard work and what you are doing!
The instructor was extremely knowledgeable on this course and was very helpful on provided useful information. In previous courses, some professors will give a lot of information and only test on a portion of them, however my instructor did a great job of only providing us with what was going to be tested.	I do not believe there were any weaknesses!	The strengths of this course in my opinion are the assignments. They are quite lengthy, however i really believe the assignments did a great job on making the students apply what we have learned.	I would say the weakness of this course was the workload. Due to the fact that this course is very complex and similar to statistics, there is a lot of information, however i think it was quite helpful.	I do not have any suggestions! I loved my professor and she made what could have been a very hard class, very easy to understand. She also made an 8am class bearable and created a great learning environment, despite how early it was.
The lecture notes always corresponded to the tests and assignments. I liked how she broke up the assignments in order to keep the class organized and have the students become more prepared. She was always accepting to questions and comments.	The only weakness was that sometimes instruction was unclear. However, she always answered emails and questions in a fast manner and cleared up any questions I had.	The strengths were being able to analyze and research common communication topics that are used in our everyday lives.	N/A	N/A
The professor did a great job of teaching the content, as well as giving us different ways to review it	The professor went quickly at times and this allowed for a bit of confusion	The course was very effective in teaching us how to conduct a research project and all the aspects that go along with that	There are a few times where there was confusion within the group due to days that we were to work independently	It may be beneficial to make times that students have to work together in order to boost teamwork and ensure that work is getting done outside of class
The strength of the teaching is that the teacher was very knowledgeable about the subject.	No weaknesses.	The strengths of the course were that the teacher was very helpful about letting us know material that would apply for our semester-long project.	No weakness.	More videos would have been helpful for the lessons that were boring or hard to grasp.

The teacher is extremely knowledgeable about research and explained the concepts very clearly. They were always kind and understanding and they had a positive attitude!	i can't think of many weakness. the teacher was amazing and i hope to take another one of her classes in the future!	The course is very material heavy, but its manageable. I liked the organization of the course. the concepts flow into each other well.	none.	none. Keep up the great work!
The teacher was well organized and I understood everything	THERE WERE NONE	The group projects	The midterm and final	None
You could easily tell that Professor S cared a lot about her students and the material that she was teaching. She was also very organized and put grades in at a timely manner.	There were no weaknesses of the teaching.	The course project followed along closely with the material learning in class which was very beneficial. As was having team tasks along the way to make sure the project was being done right and on time.	There were no weakness of the course.	I have no suggestions. Everything about this class was great.

Clear identification of concepts which would be tested and should be committed to notes and memory.	Lecture was a little too fast paced at times.	All lecture material was made available via eLC which was extremely helpful.	Workbook activities should have been compiled in a list on eLC or another place to know for sure what pages and when they might be due.	N/A
Divya was always enthusiastic, and ready to teach every morning. She gave us breaks and opportunities to collaborate with our peers that were effective in ensuring learning.	I felt that at some points there were lulls in the teaching, where it got slow, which made it hard to follow.	Overall the course was set up nicely and it flows cohesively.	This course can tend to get slow at times, and certain topics are devoted more time than I believe they should.	I think this class could be taught in less days than it is, therefore I feel as though more content could be added in order to keep the pacing even.
Miss. Srivastava was extremely helpful and kind. She made the class enjoyable and not an exhausting learning environment, unlike my previous core classes.	No weaknesses.	Very organized and straight to the point.	No weaknesses.	No suggestions.
Ms. Divya was one of the kindest and professional instructors i have encountered at the University of Georgia. Her classroom environment was outstanding and she made it so I could come to her wiith any issue and feel heard.	I can not think of any at the time.	Ms. Divya outlined the course in a manner that was very helpful and easy to understand. Her lectures were helpful with the work we completed outside of class and made the content she presented very interesting.	I can not think of any at the time.	I can not think of anything at the time.
My professor was great at explaining the concepts and relating them to stories from her life or examples in media. These examples really helped me to understand remember the content of the course. She showed videos or told real-life examples for us to understand the communication.	Some students abused her nice qualities. Many would show up to class extremely late just to get the attendance, which was not fair to those who came in on time. There were no real weaknesses to her teaching other than those students.	The strengths were the simple lectures where she let us know what would be on the exam, it was a very straight forward lecture that i appreciated.	None. Only people abusing her kindness.	None. Divya is an incredible teacher and shows her knowledge of the material as well as her true concern for the wellbeing of her students.	I can't think of one	Most of the information was easy to grasp and learn	Sometimes the information could be ambiguous	Maybe add some quizzes to assess knowledge in between tests
Divya presented info in a clear and concise way.	There are none I can think of.	It was incredibly manageable and impactful.	NA	It was great, nothing I can really think of to change.
Divya was very clear with the content we were learning and nothing was confusing.	I don't believe there were any weaknesses.	This course teaches me a lot about every day things that I never would think about.	I don't think there were any weaknesses in the course.	I think it is already great!
Everything was on elc so I could go back and review. I also really liked how each slide was elaborated on.	It was easy to lose focus because I know I can just look back at elc.	It helped me learn a lot more about communication and I always had a lot of fun in class.	The 6 page paper wasn't very fun but we had plenty of time to do it.	I really enjoyed the class!
I was excited to attend class at 9:10 am, she made the material clear and everyone understood it.	There was no weakness.	Valuable life skills that can be used in the work place.	No weaknesses.	None
Professor Divya did an outstanding job in helping us feel comfortable in the classroom and that we are able to voice our own ideas and thoughts without judgement or criticism. Professor Divya also did a great job in relaying all course information in a timely manner and was extremely knowledgable in the study of interpersonal communication. She was very lenient with deadlines, and allowed us to take time if we needed to complete assignments. She was very accepting of mental health days, and offered to help us grow and strengthen as a student.	No weakness.	Not very work intensive	A lot of information in each unit	[No answer given by student]
She was wanting to get us involved, to keep us interested but not stressed out, and to relate to us personally as a teaching strategy.	None.	Improved my communication skills and self evaluation skills.	Lots of it is common sense.	None, loved the class.
She was well versed in the subject, extremely kind and understanding, and effectively taught the subject in a way that students could easily learn without excess stress.	Honestly, I dont think there were any weaknesses. Dr. Divya was an AMAZING and kind professor and if she offered other classes I would 10000% take them with her.	Taught me how to better communicate within interpersonal relationships. And it was well organied.	None.	I honestly have no suggestions. The class was very entertaining and well planned and thought out. I am extremely happy with the course and my instructor.

What is taught is relatable to everyone - very effective for everyone to know and develop in their time at UGA.	None. Very effective course.	This was a great class and I do not have an recommendations!
This professor was awesome. She is kind, dedicated and understanding. She really knows how to connect with the students in order to build a community. The course was very well organized, planned and thought out. We covered every topic we needed to without much error/mistakes. The tests were easy given you were in class and knew the content. She makes it a very easy class if you're willing to put in the work. Loved this professor!!!	N/a	Like I mentioned before, it was very well thought out and organized. Definitely one of the smoothest run classrooms I have ever been in. By keeping the same routine everyday, I knew what was expected and it allowed us to move through things very fast. She was also very kind and compassionate about the information she teaches.	N/A	Very well structured, good pace, fun	N/A	I genuinely thought that the teacher did an excellent job teaching this class. She is definitely a teacher I would like to have in the future.
Divya gave us all the info needed to succeed in the course and was always providing relevant examples, so concepts were easier to understand.	Since the course is a lot of definitions, sometimes the notes were a little boring, but Divya tried her best to make it interesting.	I felt like I had all the resources I needed to do well in the course.	I wish the group project was earlier in the semester because it seems like its being thrown in at the end.	[No answer given by student]
Divya is the kindest professor I have ever had. She created the best learning environment and really cares about her students. She is so positive and makes you feel great about yourself!	I don't think there were any weaknesses, great class!	The course content was very interesting, it always keeps my interest in class.	I don't think there are any weaknesses in the course. It has been great!	I have loved this class, please keep it the same!
Divya S was an amazing teacher. She explained the concepts clearly, gave us time to get our work done and was always extremely understanding.	n/a	I think this course was a good introduction to communications and explained some important concepts that everyone should know	This course was dense with material, but my professor managed it well and gave us ample time to understand it.	My professor made us a study guide for the exams and I found that extremely helpful.
Divya was very supportive and	N/A	Learning what we needed to know, it	A lot of material in a	N/A

promoted health which would promote learning even more		was very concise	short amount of time	
Everything she was teaching was very helpful and useful. She was very active in helping and answering questions.	None	Teaching us the different types of relationships.	none	She was amazing!!
I thought the instructor was very organized and the requirements of the class were very well communicated.	There were no weaknesses that I could outwardly identify	Helping the students understand the details of what communication really entails	There were no weaknesses I could outwardly identify	None
Ms. Divya is always very thorough when going through the lecture slides in explaining the content. I always feel like I have a good understanding after she is done with her lecture.	I didn't feel like she had any weaknesses, I knew I could go to her for extra help if I needed it and I always learned the material.	Helping me build my communication skills.	Some of the content is almost too easy, however I'm not complaining about that.	I feel like this class was very beneficial to me, and I thought Ms. Divya did an amazing job all semester.
She genuinely wants all her students to do well. She is always willing to help and she understands that we are in other classes so she is more lenient. She always provides useful videos to example concepts.	I do not know any weaknesses relating to her teaching. I enjoyed this class thoroughly.	The course's setup is really easy to follow.	The course is required for Terry, but I am unsure if we discussed anything that could help us in the business realm.	Maybe add a unit on how to utilize the techniques we learned- or change the prompt of the essay to fit something like that.
She was very efficient and made class fun and interesting.	She sometimes would not be super clear on when tests were or when assignments were due.	It did not require a lot of work outside of class which was nice but the tests were hard enough to make you still have to pay attention and study.	There aren't any obvious weaknesses of this course. I would say that the workbook assignment could be better if they had a firm due date.	I don't have any way she could improve really. It was a great class.

She was very good at listening to her students and getting to know them individually in order to help them learn better. She explained things very well and all of the coursework was stimulating yet manageable. She was an excellent teacher.	I honestly didn't notice any weaknesses.	I was able to learn so much about communication and the course taught be how to better interact with people.	The course was a little bit slow-moving sometimes, but it really wasn't that bad and I thought overall the course was great!	I loved the teacher and the class, no complaints from me!
The way the instructor outline the course was very helpful to me. I also liked the way that she ran her course on a day to day basis. It was very organized, informative, and useful.	I feel as if there were not any weakness in her teaching style.	The strengths of this course were the material we learned, the instructor, and the participation of the class. This class was very informative and I learned a lot in it, but I also appreciated others contributions to class discussions daily.	I do not think this course had a weakness.	I have no suggestions because my professor was AMAZING. She is very patient and kind when it comes to questions and homework. She is also very accommodating if one needs it. She is lively and keeps the class engaged, which is very important in my opinion. I thought she was great and she deserves the world!
Very informative lectures and was always straightforward when teaching material.	None	The course pushed me to look at my own personal communication in regard to what I had learned.	None	None

Divya did an amazing job of asking questions that directly related to the content and explained topics thoroughly. I easily understood the content and the tests fell in line with the course content.	There were no weaknesses. I have no ideas for improvement.	The course provided relatable and relevant content that provided information that I can apply to every day life.	In some areas, I wish the content went a little more in depth mainly about how to communicate in a professional setting.	I have no improvements for the teaching or course.

<p>that really helped bring a greater understanding to the class. She also commonly asks the class if they are confused after teaching, leading to a lot of questions being answered that otherwise probably would not have been. <p>Professor Divya was very thorough about teaching each chapter in-depth and provided great examples to help the class understand each topic that was discussed. She was very knowledgeable in the material and also made it more interesting by playing videos in class that pertained to the subject instead of just lecturing for the entire 50 minute class.</p>	<p>Sometimes the material could be a little bland since it was pretty much the same thing almost every day. I think it would've been fun to incorporate more hands-on activities to keep the class more engaged.</p>	<p>The course was very manageable. I appreciated that there was rarely any work that had to be done outside of class. Even though the tests relied a lot on memorization, I rarely had to study for them because Professor Divya did an amazing job of covering everything during her lectures.</p>	<p>Sometimes I felt like each chapter was a little fast, which would make me worried that we didn't spend enough time on each topic. But then we would get to the test and I realized I was just worried for no reason.</p>	<p>I suggest keeping the same peaceful atmosphere to the class! Public/interpersonal speaking definitely isn't my thing but I rarely felt anxiety in this class even though I knew I'd have to be interacting a lot with people I didn't know. I feel like this is because Professor Divya always made sure that we felt comfortable in her class. She played calming music every day, talked in a calm manner, and didn't put too much pressure on us to have to do pair work every single class period.</p>

She did a very good job using videos and other resources to enforce a topic we were learning.	sometimes it was hard for her to explain things in the correct wording	preparing us for what would be on our test	discussion times were stiff	none
She is a great teacher and is very willing to answer any questions, speed up, slow down, or whatever is needed.	I don't have any for her.	It is set up very well and makes it easy to learn and build upon that learning	mandatory attendance with only 2 unexcused absences	I think this is a great class with a great teacher!

The strengths of teaching was that she knew our names. This is so important and makes students feel good. She related content to current events and things college students would understand	The only weakness is the class became very lecture based.	Allowed me to talk and work with others and improve oral communication	N/A	[No answer given by student]
Very clear speaker and easily communicates concepts.	Honestly, I cannot think of any weaknesses.	The strengths of this course is that it taught me how to become a better speaker and increased by communication competence.	N/A	Maybe another group project could be thrown in at the end because the last few weeks have been a little slow compared to the beginning of the year.
Very interactive and interesting. Enjoyed going to class everyday	Nothing	Easy but also challenging. as long as you study and pay attention it's easy	Maybe more workbook activities to boost grades for those who didn't perform well on tests	Divya was great, very respectful and understanding.

The instructor was very straightforward and clarified concepts that were difficult.	None	Course had a mix of assignments like projects, test, and workbook activities.	None	I wish for certain topics, the ones we did projects on, if the instructor provided more resources and examples, it would have been useful for students.
The presentations were informative and interactive.	I can't think of anything, I loved this class!	The course addresses real-world issues with communication that college students are experiencing.	I can't think of anything.	I can't think of anything.
The teacher tries to engage everyone in class and is very friendly with everyone, which welcomes a positive environment in class. I really like how interactive the class is with videos and fun Kahoot quizzes to test us without making it stressful.	There aren't really any weaknesses in teaching.	I liked how the course was well laid out and the instructor made it very clear as to the course objectives and how to succeed on the course. Additionally, the tests were not that difficult and the study guides provided by the instructor were very helpful.	I do not think there were any particularly strong weaknesses of the course.	I wish there were group activities besides the group project that would enable students to talk to one another and discuss the topics that were worked on in the workbook. I feel this would have helped with getting to know other students better and would have helped in creating a more inclusive, fun environment.
The way the professor taught ur class was very helpful and knowledgeable. SHe didn't want to waste any time so taught us exactly what we needed to know for the exams in this class. Definitely class interaction and personability with the students.	Overall it was very good but sometimes she would go a little fast.	The presentation aspect of it gave us very good practice for communication.	There needs to be more hands-on activities for the course or more communication practice activites.	Have some sort of speech or case study where we can use the skill we learned.
Divya is a wonderful instructor and promotes a positive learning environment in the classroom. She is always willing to work with students and help them better understand the material. She is very enthusiastic and although this course was an 8 am she made me want to come to class. Class was always very engaging and she used relevant examples in this course that we can apply to concepts. I loved how she applied videos that we would know to understand these concepts. Also using Kahoot quizzes was very engaging. Divya was wonderful and I am so happy that I took interpersonal communication with her. This was probably my favorite course this semester!	n/a	I liked the workbook activities I thought they were informative. I also think the lectures were very helpful and the concepts we learned were very applicable to our own lives.	The only weakness I would say is the course was at 8 am, but that was not the instructors fault.	Great course!

Great presentation of the course, she gave a lot of examples and help to understand the material	N/A	Definitions and practice for studying.	The lectures were usually in the shorter side	N/A
Her strengths were being personable and having real world examples for everything.	I don't think she had any weaknesses.	The strengths were the consistency and positivity.	The weakness was how it was at 8 am.	I don't think I have any suggestions.

Making sure everyone knows the material. Along with telling us what exactly is on the test.	Class can at times be a bit boring.	Allows you to grow as a speaker and learn more about speaking with others.	Nothing.	Nothing.
My instructor was very clear and organized throughout the semester	N/A	It challenged me to think about my relationships in my life and how they translate to what we have learned about in class.	Top hat, which we used in the course, glitches a lot.	I think my instructor was great and I don't have any suggestions.
Prof. Divya was just amazing. She made this course phenomenal.	There were no weaknesses at all.	This course really helped me become aware of some feelings and showed me ways to deal with them.	There were no weaknesses in this course.	Let Prof. Divya teach every class because she is great.
Professor Divya did a great job of ensuring the concepts and expectations for the course were clear. She always addressed questions and ensured her students felt comfortable in the classroom and with their knowledge of the material.	Frankly, I cannot think of many weaknesses. The grading system was fair and justified, the coursework furthered my understanding of the material, and the professor was always available for help.	This course provided a very good base understanding of interpersonal communication. It successfully led me to consider my strengths, areas I can improve, and how to improve.	I cannot think of many, maybe an additional opportunity for hands-on learning and creating more interpersonal communication within the class.	I do not have any suggestions. Professor Divya has been one of, if not, my favorite professor that I have had in my 4 semesters at UGA. She is compassionate, flexible, and has a great knowledge of the information at hand.
Professor Divya S did a great job teaching and giving examples that were very helpful. These examples allowed me to better understand the material, and even helped me improve my communication skills.	There were no weaknesses of the teaching. I attended every single class, and never regretted it because of how useful the information was.	There were many strengths to this course. A great strength was how organized the material was. Moreover, Professor S did an amazing job teaching it in a way that everyone could understand.	There were no weaknesses in this course.	I do not have any suggestions because the course had a great variety of assignments.

Professor Divya was very good at articulating the material and course content to us. She explained everything very well and had lots of examples throughout her lectures! She made getting up for this 8AM class enjoyable.	None	How well laid out the material and schedule was.	None	None, i thoroughly enjoyed taking this course.
Professor Divya was very knowledgeable in interpersonal communications and showed a passion for teaching the topics, so it made the class flow very smoothly. She also used helpful videos to show us visually what she was teaching and would connect the points we were taught to the video. She also understood that the class was an 8 AM class and that we would be tired sometimes so would gauge her lectures on the energy of the class, keeping the class simple and short.	There weren't really any weaknesses in Professor Divya's teaching. I felt everything she did was amazing.	The course itself is about interpersonal communication which is a great part of us that we should improve, so I would say the course itself is a strength.	The course was just interpersonal communications which is in itself pretty simple.	I do not have any specific suggestions.
Prof was knowledgeable about everything and wanted her students to succeed. she maintained a positive attitude the entire time which is uplifting and refreshing compared to many others. She was very clear in her lectures and what was expected for us in the class. She also was very understanding that most people did not really like to present, so she made the class environment really uplifting, positive, and comfortable.	There were no weaknesses that I noticed during her class.	This course helped me learn a lot of new things about interpersonal communication that I can apply in my daily life with friends, family, and relationships.	None!	Nothing specific! I thought she was a great professor for this class, and I wouldn't have wanted to take it with anyone else!
The teacher was very knowledgeable and always had examples to help us understand certain topics.	The lectures went a little fast.	They helped me understand myself and my relationships better.	none	none
The teaching of this course was very clear and expectations were set from the start.	I cannot spot a weakness in the teaching, the class was clear and concise!	This course is very interesting and the expectations were clear. I honestly really enjoyed starting my day with something so different from my major classes.	n/a	n/a
Very informed on the material and able to explain topics very well. Info was always presented in a way that was easy to understand. Notes were very easy to follow. The videos and examples/stories made the class more engaging.	I loved the teaching have nothing to critique.	The material of the course is interesting and pertains to everyday life.	n/a	I thought the quality of teaching was great.
Very organized and clear.	none	Content on exams was perfect reflection of content taught in class.	none	none.

Clarity	None	Easy and well organized with study guides for tests	None	None
Divya showed kindness, compassion, and understanding towards her students, therefore creating a positive learning environment. She clearly understands the content of the course in a way that is communicable to her students, allowing us to really improve our communication skills.	I wouldn't say there were any weaknesses in the teaching, as Divya was an excellent professor.	The strengths of this course were the skills taught to the students, such as oral communication and developing interpersonal relationships.	I would say that a weakness within the course is the fact that most of the content is general/common knowledge, so while there were a few new things I learned, most of the content were things I already knew. However, Divya's way of teaching helped strengthen my knowledge about these topics.	Not really, it was set up very well by Divya.
Everything was very well taught in a clear way so that we understood the concepts.	N/A	The course was taught in an enjoyable way where we still had everything we needed to do well on the exams.	N/A	n/a
Good presentations, and teaching style. Very well organized and clearly explained class.	N/A	The topic is interesting and practical.	N/A	N/A
I liked how everything was well condensed and any further explanations were usually not needed because the material was straightforward. But the instructor's commentary on the concepts were helpful in learning the material.	Honestly none, I liked how Monday and Wednesday were lecture days and we always had a kahoot to then solidify a few concepts each day in class. And the fridays were workbook days, so it was always predictable and easy to manage.	All the material was interesting and I felt like I learned the names of concepts I already knew because the material was straightforward.	None, I felt that the material covered was very similar to the exams and looking at the slides prepares you well enough for the tests.	This isn't helpful, but I really do like how the course is set up as is.

Instructor communicated everything that was expected of students and gave valuable feedback.	[No answer given by student]	The group project helped me improve on my communication skills when talking to a large group of people.	[No answer given by student]	[No answer given by student]
it is easy to understand the content and definition of this course.	n/a	Powerpoint contains all of the things we have to learn	n/a	n/a, the instructor is really good!
Professor Divya S was the best! She teaches in a way that was very easy to understand and she was extremely organized. All of the materials she introduced in class were very helpful and her expectations were very clear. I really appreciate how kind and understanding she was as it was very beneficial to my success in this class. I also appreciate how she tried her best to make the class an enjoyable learning experience. She always made it clear when/how she was accessible outside of class and graded all of our assignments promptly. Overall she did a great job with this class! :)	There were no weaknesses in her teaching!	Her organization and how she taught the lectures were beneficial. I appreciate how easy her lectures were to follow.	[No answer given by student]	Keep it up!

taught the content so well.				
She organized class well and prepared us for the tests well	Sometimes lecture were lengthy	We organized	Lots of surface level material little depth	None
She was very good at connecting the concepts we were learning with real-world examples so that the content was a lot easier to learn.	I found it boring at points but other than that it was great	It gives you knowledge of interpersonal communication that you experience on a daily basis.	The group project that is mandatory can cause problems as not everyone in the group contributes the same.	I would keep giving out study guides for the tests as they were quite helpful.
She was very knowledgeable and made class interesting and fun.	I do not have any	I thoroughly understood all content and can use it in my normal life.	n/a	n/a
She went very in-depth with the slides and also had videos to reinforce concepts.	Making sure everyone was attending class.	The nature of the content to everyday life.	a little redundant	nothing besides making the content less
The instructor is knowledgeable about the course content, explains concepts clearly, and promotes a strong learning environment.	N/A	My oral, written, and interpersonal communication skills improved because of this class.	N/A	N/A
The lessons were very clear and showed thorough examples in all formats including word explanations, pictures demonstrating the concepts, and videos that accompany the lesson. The Professor was very friendly and organized and made the class very enjoyable to attend.	There were very few weaknesses but I would say mainly more classroom question interaction.	The course is full of very interesting and very valuable topics on communication and does an excellent job covering all basic concepts of interpersonal communication. We also covered important and relevant topics that were not required for testing.	I think sometimes the course went off track from the description of the course and I think some interpersonal communication hands-on practice like conversations and interviews would make the course much stronger and more valuable.	As I stated above, adding practical lessons about interviews and conversational or at least an introduction to these concepts so students can get dry-run experiences.

The professor explained all of the topics really well and in detail	[No answer given by student]	The course helped me in improving my interpersonal skills	n/a	n/a
The strengths of teaching was that she was very organized and used various unique resources to help us understand the concepts such as kahoot and YouTube videos	It moved a little too fast at times	It was very structured and easy to follow as every thing had a logical progression	It moved a little to fast	Keep on doing the kahoot quizzes as they were helpful in making sure that I understood the concepts from that day in class
The strengths of the teaching was that the professor tried to make it fun, which made it more engaging for the students. By doing this, it made the students want to learn about the class and attend, given that it is an 8am. Additionally, to make sure we know the info, instead of just reading from slides, the professor would make us play Kahoot at the end of each class. Thus, this allowed the students to look forward something, a game that is light-hearted and fun, but also test to see if you were able to grasp what was taught in class.	Honestly, I do not think there were any weaknesses of the teaching. The professor seemed knowledgable in every lesson we learned in interpersonal communication. Additionally, by achieving more, the professor would show us examples in shows that represent certain interpersonal communication, and then go in more depth by explaining how it relates to it.	The strengths of the course was that it was taught very well and had helped me improved not only my verbal communication, but also my written communication.	Again, I do not think there were any weaknesses of the course. The lessons/units we had to learn had improved my knowledge about the whole concept, while also revisiting some information I had already known prior to the class, but had a whole new understanding of it.	While the course and professor are already splendid enough, I would like for you to keep sticking with the Kahoot at the end of class. It really made my brain jog my memories to see if I was able to understand the information that was taught during that class period; thus, allowing me to do good on the exams. Additionally, with the content-heavy units, I really do appreciate the study guides because it does help narrow down what is going to be on the test, which then helps the students to know what exactly to study rather than trying to fit every tiny information into their brain.
The strengths of the teaching were that it allowed for me to get a better	There weren't really any weaknesses of the teaching.	The strengths of the course it that has allowed for me to improve	There weren't any weaknesses of the course.	[No answer given by student]

understanding of the content by having it explained in a fun, engaging way. This allowed for me to feel encouraged to attend class.		my interpersonal communication skills, as well as get a better understanding on how to approach a conversation.		
The teacher is amazing and one of the nicest people I've met. Explains everything well and has a good course layout.	No weaknesses	good course layout, uploads slides	no weakness	no suggestions the class and teacher are perfect!
The teacher was very kind and was good at communicating to the class.	N/A	The teacher.	N/A	N/A
used several analogies and easier ways and examples for us to understand things	none really	the paper is a good way for analyzing your skills	maybe the project topic	nope
Very interactive	No weaknesses	It was very helpful to everyday life	There were no weaknesses	Adding more questions to the slides to help us study.
